

Hampton Vale Primary School Enhances Punctuality Using Bodet's Class Change System.

SUMMARY

Overview

Industry: Education
Solution: Class change system

Benefits

- Enhance punctuality
- Control the entire system wirelessly
- Use different chimes for different bells

About Bodet Limited

Bodet has provided clocks, class change and Time and Attendance solutions for over 25 years.

This devotion to constant improvement has enabled Bodet to become the European leader in its sector.

Martin Redman, Site Manager at Hampton Vale Primary School explains the reasons why they decided to use Bodet's Class Change System.

The situation before using Bodet's System

Hampton Vale Primary School used to use a fire alarm as a class change system. Martin explained this was quite a limited solution because *"the class change bell rang for too long and was easily mistaken for a fire alarm. Real fire alarms could also be mistaken for a class change"*.

Advantages of Bodet's Class Change System

Martin commented that *"Bodet's wireless class change system is reliable and easy to control. The fact that it is wireless means it is also easy to set up"*.

Other advantages that Martin cited included the ability to add sounders as and when required and the fact that each sounder can play up to 16 recordings. It's also useful that we can easily turn it off during holiday periods.

High quality customer service

"The system was set up two years ago and it has been 100% reliable. The class change system installed has been a real bonus to the school. The team at Bodet is happy to help with any issues we experience", concludes Martin.
