

Poole Hospital uses Bodet's Clock System to synchronise time throughout its maternity department.

SUMMARY

Overview

Industry: Healthcare

Solution: Clocks & Clock system

Benefits

- Accurate record keeping
- Synchronised time
- High level of customer service

Helen Williams, Deputy Head of Midwifery at Poole Hospital, explains her experience of working with Bodet to provide accurate and synchronised time across the maternity department.

A vital solution for healthcare

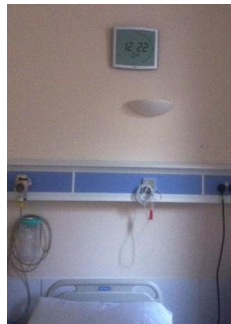

Poole Hospital wanted to provide synchronised and accurate time as it is essential for maternity departments:

"The main reason we wanted a clock system was to ensure consistency in timing and recording of clinical events across the maternity unit", explains Helen.

Bodet provided Poole Hospital's maternity department with a tailored solution for healthcare which fits their requirements. *"The system has led to much more accurate record keeping because all of the clocks are synchronised. The digital clocks also make it very easy to see the time. We will be expanding the system to our new birthing centre in the new year",* commented Helen.

Reliable systems and services

Bodet prides itself in offering a high level of customer service as well as high quality clock systems to ensure complete customer satisfaction. *"We chose Bodet due to their customer service. The sales person kept in touch on a regular basis and was patient whilst we made our decision. Bodet also gave an unbiased opinion of the benefits of their products against other options. The equipment was very easy to install and more economical in the long term due to the license free signal",* says Helen.

Poole Hospital also commented on the quality and effectiveness of the installation: *"The installation went very well with no issues. Both the sales and technical staff at Bodet have been very polite and professional throughout the whole process".*

About Bodet Limited
